

My family tree: beginning my research

L.I

1. Research your family history

Homework: You will have to ask a relative about grandparents, great grandparents, their dates of birth, and see how far back you can go.

Today you should write down, as a list, all the full names of those people in your family, as well as uncles, aunts, cousins, nieces and nephews. Today we are going to begin creating an **Extended family tree**.

Finishing your family tree:

Using your homework, today you are going to **write up your family tree**. Make it as neat and detailed as possible. I will be taking these down to Art for you to work on when you're in Art.

If you've done your homework, begin challenge 1. If not, then do challenge 2 or challenge 3.

Challenge 1: Begin to create your family tree using A3 paper.

Challenge 2: Create an A5 poster on the Impact of Italians in Scotland

Challenge 3: Carry out some independent research online about the family history of a someone you admire (could be a sports person, for example)
