

This is a screenshot of information sheet from the survey that participants will see.

## Route Planning Survey

Thank you for taking part in this survey. This survey, conducted by researchers at the University of Bristol, will help us better understand pedestrian behaviour for building design. The survey should only take 2 minutes.

We only record your answers to survey questions and are not asking for any personal information. Your responses are completely anonymous.

Please only take the survey once.

For details, contact:
