

# Anonymized Biography of Participants

Matthew Potts, Angus Johnson, Seth Bullock

The table below provides an anonymized biography of the participants. The ‘Role’ column contains responses to the question “What job title would best describe you overall over the course of your career?”. The “Experience” column contains responses to the question “How much experience do you have in this job title?”. Participants include “Thales Experts” in the following domains; systems engineering, enterprise systems architecture, systems, command and control systems, and command, control, communications, computers and intelligence systems. Several participants have experience as a Chief Engineer, many are Chartered Engineers, some are Fellows, and some have held Director and higher level positions.
